Algebra 2 Course Description

Algebra II: Course Description: This course is designed to build on algebraic and geometric concepts. It develops advanced algebra skills such as systems of equations, advanced polynomials, imaginary and complex numbers, quadratics, and concepts and includes the study of trigonometric functions.

Algebra II Course Description | Mr. Decker

Algebra 2 This course is designed as a high school second or third year college prep math course. A strong foundation in concepts and skills of Algebra 1 is required. The first part of the course is an extensive series of sections on basic algebra topics that students should have mastered in Algebra 1. Part 2 of the course focuses on quadratic equations/complex numbers, linear systems and ...

Algebra 2 Course Description - homeschoolmathonline.com

Algebra 2 is a rigorous, fast-paced course which concentrates on linear, quadratic, polynomial, radical, rational, exponential, and logarithmic functions and graphs. Irrational numbers are studied and complex numbers are also introduced. A solid foundation in Algebra 1 is essential for placement into this course. The TI-84 Plus calculator will ...

Yurich, D / Algebra 2 Course Description

presentations, and teacher led class discussions. Algebra 2 builds a foundation of mathematics for those students going on to Pre-Calculus and/or students who are college bound. Along with many colleges, a majority of careers require a successful completion of an Algebra 2 course. Course Description:

Course Description Algebra II - laquey.k12.mo.us

COURSE DESCRIPTION . Algebra 2 is a one-year course and requires a grade of "C" or better for admission to the University of California. Algebra 2 provides a review and extension of the concepts taught in Algebra 1.

Algebra 2 Course Description - New Valley Continuation ...

GENERAL NOTES. Fluency Recommendations A-APR.6 This standard sets an expectation that students will divide polynomials with remainder by inspection in simple cases. For example, one can view the rational expression . A-SSE.2 The ability to see structure in expressions and to use this structure to rewrite expressions is a key skill in everything from advanced factoring (e.g., grouping) to ...

Algebra 2 - 1200330 | CPALMS.org

Course Description. This course further extends the learner's understanding of major algebra concepts, and prepares them with the building blocks needed to dive deeper into trigonometry, pre-calculus and advanced probability and statistics. Topics include radicals, quadratic functions and equations, polynomials, rationals, systems of ...

Algebra 2 - Accelerated Education

Saxon Algebra 2 covers traditional second year algebra course material along with a significant number of geometric calculations and proof outlines. Included concepts are roots of quadratic equations, logarithms, exponential equations, radicals, polar coordinates, complex numbers, graphing lines and parabolas, and trigonometric ratios.
