The Higgs boson is an elementary particle in the Standard Model of particle physics, produced by the quantum excitation of the Higgs field, one of the fields in particle physics theory. It is named after physicist Peter Higgs, who in 1964, along with five other scientists, proposed the mechanism which suggested the existence of such a particle. Its existence was confirmed in 2012 by the ATLAS ...

Christianity makes some rather remarkable claims about the abilities of God. From a human perspective, the idea that any being can do these kinds of actions seems preposterous. However, since God is "outside of the box," we need to think outside the box. There is much evidence from both the Bible ...

According to the documentary short *Evolution vs. God*, Darwinism is a leap of faith that falls far short of Creationism in explaining the mysteries of our existence. The film, which could have presented a fascinating open debate on a crucial subject, quickly devolves into a shallow-minded "gotcha" exercise.. Throughout the course of the film, we're given flashes of rapidly edited interview ...
