The ability to create things with you hands from wood is a skill many people marvel at. Some artists can create carvings from a single block of wood or sometimes whole trees that are a wonder to see. Some are so life-like that they are just short of actually breathing. People who can do this with ...

### **12 Amazing Wooden Wildlife Carvings [PICS]**

Wood, in the strict sense, is yielded by trees, which increase in diameter by the formation, between

the existing wood and the inner bark, of new woody layers which envelop the entire stem, living branches, and roots. This process is known as secondary growth; it is the result of cell division in the vascular cambium, a lateral meristem, and subsequent expansion of the new cells.
