### **History Of American Ceramics An**

Use of ceramics increased dramatically during the Neolithic period, with the establishment of settled communities dedicated to agriculture and farming. Starting approximately in 9,000 BCE, clay-based ceramics became popular as containers for water and food, art objects, tiles and bricks, and their use spread from Asia to the Middle East and Europe.

The history of American ceramics is unique in the history of the world. In many ways, American ceramists claim the discoveries, innovations and the products of all countries as their heritage, principally because we Americans have come from almost everywhere to form a collective history linked to almost everywhere. This includes the advent...

Not until 1839-43 are American-made subjects encountered [Clement, Our Pioneer Potters, Plates 10-13], all four from the Henderson works, which since 1833 had been called the American Pottery Manufacturing Co. In 1839 the pattern Canova was printed in light blue, cribbed from a design by John Ridgway of Hanley.
