Housewrap (or house wrap) generally denotes a synthetic material used to protect buildings. Housewrap functions as a weather-resistant barrier, preventing rain from getting into the wall assembly while allowing water vapor to pass to the exterior. If moisture from either direction is allowed to build up within stud or cavity walls, mold and rot can set in and fiberglass or cellulose insulation ...

DIY Plans to Build a Curved Seat Bench Like a challenge? Me, too! The DIY plans to build a Curved Seat Bench really shouldn't be too difficult but it will put your skills to the test! The bench features a curved seat and back, and will fit well around a round table. The seat can be made using plywood or 1x material in planks. In all honesty, this bench can probably be built in a weekend!
