

## *Human Development And Interaction In The Age Of Ubiquitous Technology*

### **Human Development And Interaction In**

Human-computer interaction (HCI) researches the design and use of computer technology, focused on the interfaces between people and computers. Researchers in the field of HCI both observe the ways in which humans interact with computers and design technologies that let humans interact with computers in novel ways.

Human Migrations. Unsustainable interaction between people and ecosystems has often been associated with human migrations. When people move to a new area where the ecosystem is different, they typically have little knowledge about the new ecosystem and lack appropriate social institutions and technology for sustainable interaction. This appears to have occurred when the first human inhabitants ...
