Make a pinecone hedgehog November 21, 2006. Myra From My Little Mochi kindly sent us this tutorial.. This is an easy winter craft I did with my son. Unfortunately, we don't have pinecones in our part of the world, but if you do in yours it would make for a nice joint nature walk and craft to go look for a variety of different shaped pinecones.

Let's get started. #1: Prepare the Pinecones. First gather some pinecones.They should be medium to large in size. It's a great opportunity for your family to go outside and enjoy nature for a while.. If you live somewhere with pine trees, you can take the kids on a neighborhood treasure hunt to find pinecones for your project.. Or you could plan a nature walk or hike somewhere nearby.

I absolutely ADORE Pine Cones - we love nature crafts for kids - and Pine Cone Crafts are a MUST when crafting with nature. They are just fabulously fun in all their tactile prickliness and are a fun nature find when out for a walk all year round. Pine cones actually make good humidity indicators ...

2P info masterpost. So, ever since I created this blog a few months ago, I've received some quality and genuine questions about my sons the 2Ps. I wanted to compile all the answers into one post because they're the most basic information to begin with regarding the Second Players, and since some of you use my headcanons for art/ fanfiction (which I totally love you for), I figured this ...
